

Borough of Madison, New Jersey

COVID-19 Update 6/1/22

Since the arrival of COVID-19 in March 2020, there have been a total of 2,748 confirmed (PCR test) and 712 probable (antigen test) COVID-19 cases reported in Madison Borough*. The chart to the right shows the trend in newly reported cases throughout the pandemic. Home-based COVID-19 tests are not required to be reported to public health authorities and thus remain unrepresented in case-count data. Within the last few weeks, COVID case counts have begun to rise again, despite at-home tests being uncaptured in the officially-reported data. According to the [CDC Nowcast model](#), in the week ending May 28, 2022, the Omicron sub-variant BA.2.12.1 is predicted to be identified in 78%, BA.2 sub-variant is predicted to be identified in 19%, and the original Omicron variant B.1.1.529 in 2.9% of samples tested in the NY/NJ region. NJDOH and local health departments across New Jersey are actively monitoring these changes in variant dominance as well as any changes in transmission, hospitalizations, and deaths. More information on these trends can be found on the [NJDOH COVID-19 Data Dashboard](#).

*More information on the definitions “confirmed” and “probable” as well as “PCR” and “antigen” tests can be found [HERE](#).

COVID-19 Cases, Incidence Rate, Deaths, and Case Fatality Rates New Jersey vs. Morris County vs. Madison Borough

| | Total Confirmed Cases | Total Probable Cases | Cumulative Incidence Rate per 100k | Total Deaths | Overall CFR** | Total COVID Cases Reported by Facilities -Residents* | Total COVID deaths Reported by Facilities - Residents* | CFR** for Facility Residents* |
|---------------|-----------------------|----------------------|------------------------------------|--------------|---------------|--|--|-------------------------------|
| New Jersey | 2,057,928 | 340,229 | 23,169 | 30,658 | 1.5% | 50,544 | 8,615 | 17.0% |
| Morris County | 110,882 | 20,655 | 22,544 | 1,257 | 1.1% | 3106 | 558 | 18.0% |
| Madison | 2,748 | 712 | 15,566 | 29 | 1.1% | 102 | 14 | 13.7% |

*Residents of long term care or assisted living facilities or group homes
 ** Case Fatality Rate is the percentage of COVID-19 cases who have died from COVID-19 related illness
